With years of combined product and system experience, our experts use their unique applications knowledge and technical skills to understand your project requirements and suggest the best product solutions for the job.

Whether you are assembling a bid package and need specifications, planning new construction or a retrofit project, or repairing an existing system, Gasco consistently delivers the best solutions for our clients needs.

**Gasco**

**Gas Regulators • Meters • Accessories**

---

**Sensus**

Manufacturer of meters and pressure regulators that enable customers to better manage, measure and control operations.

**Dresser**

For almost a century, Root’s Meters have been used for billing of commercial and industrial gas loads.

**Pietro Fiorentini**

A global leader in designing and constructing of components and systems for natural gas control, metering and treatment.

**Maxitrol**

Manufacturing a complete line of gas appliances and line regulators for domestic, commercial, and industrial needs.

**Etter**

UL-Listed, hermetically-sealed Etter gas boosters are designed for the 21st century.

**SMG Valves**

SMG Valves combine proven design and quality construction to provide dependable long life for a variety of applications.

**Eagle Research Corporation**

Manufacturer of high accuracy instruments that will optimize gas flow measurements.

**Keckley**

Keckley’s industrial and commercial pipeline strainers are designed for a wide variety of applications.

**ASCO**

ASCO solenoid valves control critical flow from two-position on/off valves to flow control systems.

**PIC Gauges**

Pressure and temperature sensors. Pressure gauges, needle valves and b-metal thermometers.

**Fulton Thermal Fluid Systems**

Fulton’s thermal fluid heaters feature a four-pass, high-efficiency design that pre-heats combustion air.

**Pacific Seismic Products**

Manufacturing ASCE 25-06 listed seismic actuated valves for residential, commercial and industrial applications.
REGULATORS AVAILABLE FOR A VARIETY OF APPLICATIONS FROM SMALL BURNERS TO EXTREMELY HIGH PRESSURES AND CAPACITIES

**SENSUS**
- Flexible mounting options
- Full range of service and line pressure regulators
- Manufactured in accordance with ANSI B109
- Outdoor or indoor use

**Pietro Fiorentini®**
- Highest turndowns available 500:1 and 1000:1 capabilities
- ANSI Z21.80 Compliant
- Installed inside or outside
- Ventless configurations available
- Wide range of pressure and flows

**MAXITROL®**
- Ventless designs available
- ANSI Z21.80 Compliant
- Appliance Class regulator
- 2PSI line certified regulator

Meters for small to very large capacity

Speciality items available include:

Delivering quality solutions for your control valve, actuator and regulator needs for over 65 years.
